UNITED STATES INTELLIGENCE BOARD

COMMITTEE ON DOCUMENTATION

IFIP Congress and German Trip

1. There is no new information on the IFIP Congress itself; no specific dates have been communicated by the Congress management for the individual subject sessions. A brochure on the exhibit "Interdata", held in conjunction with the Congress, has been received, but it is aimed at exhibitors and gives little substantive information. It is assumed that the CODIB travelers either now have, or will soon have, their travel and accommodation reservations for the Congress.

2. The Army and Air Force members have been working on arrangements for the USAREUR and USAFE visits, which now stand as follows:

Monday, 3 Sep: CODIB members travel independently from Munich to Stuttgart in the morning, arriving for lunch and briefing from 1300 - 1530 hours on Army CIC Central Registry Processing System. Thereafter travel by Army vehicle(s) to Heidelberg.

Tuesday, 4 Sep: Heidelberg briefing, including two hour session on a new ASAE IBM 1401 processing system being activated in Frankfurt. Travel by Army vehicle(s) to Wiesbaden.

Wednesday, 5 Sep: USAFE briefing. End of official CODIB session; members to proceed independently to Washington or elsewhere.

3. Hotel or other accommodations, then, should be provided by each member for himself in Munich through Sunday night, 2 September. Arrangements will be made by the Army for the night of 3 September in Heidelberg and by the Air Force for the night of 4 September in Wiesbaden. Stay over in or near Wiesbaden by Air Force may be possible, or independent arrangements can be made in Frankfurt.

4. Certified security clearances for the USAREUR and USAFE sessions will be transmitted through Army and Air Force channels. Special clearance is required.
